Dan,

It has been a pleasure working with your company over the last few years. The job Hendrick Painting provided on the restoration of the outside of our building has made a great improvement to our image. Also repainting the production areas has improved the over all moral in the shop. We have received many compliments on it and now my customers our wondering when we will be updating our lobby. Thanks again on your teams flexibility and professionalism in working around us during business hours. I look forward to working with you again on our front lobby transformation.

Sincerely yours,
